What Is AutoCAD? AutoCAD is a type of CAD, a software application that can be used to design architectural and engineering projects. The app has an internal platform, which allows the user to program commands for the app and connect to networks to make use of cloud computing services. Developed by AutoDesk, an American company, the app can be used to design everything from architecture to engineering projects. The software is used to create vector graphics, making it ideal for creating wireframes and diagrams. AutoCAD can also be used to create photorealistic renderings, which allows the user to see their design before they build. AutoCAD does not require specialized training, allowing all levels of users to design and create their own designs. Once a design has been created, the user is able to use a variety of design tools to alter or correct their design. Top AutoCAD Brands AutoCAD apps are available for several platforms, including Windows, iOS, Android, and Mac. Some versions are even available for Chromebooks. Extending the drawing environment Using the tools Using the command line interface Both scriptable and non-scriptable interfaces exist for AutoCAD. The AutoLISP interface for commands, methods and objects is easy to learn and use. Commands may be easily grouped and there is a large number of predefined commands. There are also many add-on command groups. It is possible to extend AutoCAD's commands and functions to perform special tasks using AutoLISP. AutoLISP AutoLISP, the language which is used in AutoCAD, is similar to the LISP programming language, however, it is a subset of the Lisp programming language. AutoLISP is a macro language. Using AutoLISP is easy since commands and functions are grouped in various modules. Fistula formation after radiation therapy of the neck and oral cavity is uncommon. The frequency of fistula formation was estimated to be 1.7% in previous studies. We report a case of a 55-year-old woman with a pyriform sinus fistula, occurring 6 years after radiation therapy of the neck and base of the tongue. The fistula was treated with a free jejunal flap transfer. The final diagnosis was a primary epidermoid carcinoma of the tongue base. The treatment and the follow-up are presented in detail.Q: javascript countdown to date how do i countdown to a given date? for example, let's say i have a date in 2012/12/31 10:00 and i want the countdown to be less than or equal to 2012/12/30 10:00 A: You just need to set the date to the end of the current month: var d = new Date(); d.setMonth(a1d647c40b

Surface of the Hard Sell "Surface of the Hard Sell" is a song recorded by American R&B singer Luther Vandross. It was released in February 1986 as the second single from his sixth studio album, Watermark (1986). It is Vandross' last solo hit and is considered a "classic." Background Luther Vandross had a string of hits, including the international No. 1 hit "Never Too Much" from 1984, which was a duet with Peabo Bryson. Vandross had released his fifth album, Night Crawler, in 1983. The title track from the album was Vandross' first single, which reached the Top Ten of the US Hot R&B/Hip-Hop Songs chart, his last to do so. At the time of his death on July 25, 2005, Vandross had fourteen Top Ten R&B hits, including four number ones. Reception Rolling Stone magazine reviewer John Mulvey described Vandross' "hard sell" as the "mixture of falsetto and soul." Entertainment Weekly wrote that "Luther's seductive falsetto and eye-rolling guitar riff carry the song like a smoothly guided sexperience." Music video The music video for "Surface of the Hard Sell" was released at the same time as the song in the US. It begins with the title being displayed on a billboard. Vandross is seen in a black suit and tie, walking down a crowded street, in a familiar location. He stops at a large, crowded, open-air restaurant on a busy street, where he waits at the bar. He is seen talking to a white couple and is seen eating with them, when an African-American couple walks up to him. They try to introduce themselves, but Vandross is not interested in talking to them. He appears uninterested in having his picture taken with the couple, while they are taking photos. Vandross starts to leave the restaurant, but the couple blocks his way. As he walks, a car pulls up next to him, and the couple are in it. The man is in the front, and the woman is on the passenger side. Vandross gets in the car, and the couple follow. Vandross makes it home, but the African-American couple soon follow him, as they drive around Vandross' neighborhood. The African-American couple follows him to his house, and the white couple follow. In the house,
