Your email: Privacy: I declare that I have read and accepted the SeaHorse.com privacy policy.Q: Convert SQL server datetime from Date/Time to shortdate (dd/mm/yyyy) format I have query that returns dates in Datetime format from SQL Server and converts it into shortdate format and then create the stored procedure. Is there any better way to do it? SELECT CONVERT(VARCHAR(20), GETDATE(), 120) A: If you want a shortdate format, you'd just need to add an @ for the time portion: SELECT CONVERT(VARCHAR(20), GETDATE(), 120) +" + RIGHT(CONVERT(VARCHAR(10), GETDATE(), 120), 2) Comparative analysis of sodium transport in proximal tubule cells from different mammalian species: in vitro evidence for a divergent expression of the amiloride-sensitive epithelial sodium channel. Sodium transport in the mammalian nephron is dependent on the electrochemical gradient established by sodium/potassium ATPase (Na,K-ATPase) and the basolateral membrane Na-K-2Cl cotransporter (NKCC2). However, epithelial Na-transport has been studied almost exclusively in primary cultures of distal renal tubule cells, which differ in structure and function from cells of the proximal tubule. Therefore, the aim of the present study was to compare proximal tubule Na-transport between species with and without functional NKCC2. Isolated proximal tubules were perfused with isotonic (140 mM) Ringer solution in the absence or presence of furosemide (100 microM). Influx into proximal tubules of the rat, rabbit, cat, and dog differed markedly, whereas perfusion of proximal tubules of the pig and horse with 140 mM Na(+) produced similar values for Na influx as the rabbit and dog, and only slightly higher values as the cat. In contrast, Na-eff 3da54e8ca3
